POLICE REPORT.—Last night was clear and mild. Twelve prisoners and two lodgers were at the station house. Mayor Strauss this morning disposed of the following cases:

The case of Thomas Carter, colored, arrested by Officer Arrington for fighting, was continued until Friday.

James Toliver, colored, arrested by Officer Arrington for gambling, was fined \$2.50.

Taylor Finch, arrested by Officer Crump for drunken and indecent conduct, was fined \$5.

Leonard White, colored, arrested by Lieut. Smith for jumping on a passenger train, was fined \$2.

Henry Smith, colored, arrested by Officer Sherwood for assaulting his wife, was released, the charge having been withdrawn.

Paul Hensbrough, arrested by Officers McCuen and Young for damaging the property of R. F. Cockerill, was fined \$5 and compelled to repair the damage.

Louisa Taylor and Susie Skelton, colored, arrested by Officers Jones and Bettis for fighting, were fined \$2 each.

Three colored boys, arrested by Officers Ferguson and Brenner for gambling, were fined \$2 each.

Jos. Kaufman, arrested by Officers Arrington and Hayes on suspicion of larceny, was sent to his home.

Frankie Folsom, arrested on complaint of Josie Fry, who charged her with abusive language, was dismissed, the charge not being sustained.

RAILROAD BILLS IN CONGRESS.—Mr. Richardson, of Tennessee, who will probably be one of the members of the House committee on the District of Columbia, says in reference to local matters:

"Of course while I am interested in everything that concerns the citizens of Washington, as the interests of the city and of my constituents are in a great measure allied, there are some matters of legislation in which I am particularly concerned. One of these is the entry of the Norfolk and Western Railroad into Washington. The bill providing for this which failed to get through at the last session will be brought up early and pushed constantly. That road ought to be permitted to come into Washington. The bill authorizing the Mount Vernon Railway Company to bridge the Potomac in order to give the residents of the Virginia side of the river quick access to the city should be passed and earnest efforts in that direction will be speedily made. The bridging of the river will be a great boon to the residents of all that section of the country lying west of the Potomac and would also benefit the city."

When asked his sentiments upon the trolley question in its application to Washington Mr. Meredith replied that his stand upon this matter will be governed by the sentiments of the citizens. He would consult their feelings in the matter.

INSTALLATION.—There was a public installation of officers last evening in the parlour of Talisman Lodge, No. 754, I. O. G. T. An unusual large attendance was present to witness the ceremonies. After the report of the respective officers for the last quarter had been read (which showed an increase of membership and the lodge on a firm financial basis), the D. G. C. T., James R. Mansfield, proceeded to install the officers for the ensuing term, which were as follows: C. T. James E. Sampson, V. T. Mrs. M. Markham; R. S. Alvin Powell; F. S. J. F. Glover; (proxy); Treas. Miss Stella Price; Chaplain, Miss Fannie Downs; Marshal, Wm. Carroll; Deputy Marshal, Miss Rosa Griffith; Guard, Miss D. Moore; Sentinel, Miss V. Miller.

SEMINARY MISSIONS.—The Journal contains the report of the mission work done by the Theological Seminary students last session at 13 different points in the vicinity of the Seminary. The aggregate result is as follows: Adult baptisms, 1; infant, 20; whole number of communicants, 151; marriages, 4; funerals, 10; total contributions, \$773.47; communications, 13; S. S. teachers, 62; S. S. scholars, 539. The mission work among the employees of the Richmond and Danville railroad has been successfully continued in Alexandria by Messrs. Lee and Semmes, at a cost of \$500. The company has rented a building furnished with beds and baths, and has kept the reading-room supplied with the leading magazines, weeklies and dailies.

BARLOW BROS.' MINSTRELS will appear at the Opera House to-night. The troupe is a good specimen of the best type of modern minstrelsy. The stage setting for the opening is a triumph of the decorator's art, and the performance altogether is worthy of the rich setting. A good deal might be said concerning the various musical and other specialties that make up the programme. The Barlows themselves are veteran burnt cork artists and they have surrounded themselves with able assistants.

The troupe gave a street parade to-day and presented a very handsome appearance. This is one of the most refined troupes on the road. Among the features of to-night's entertainment will be the boy soprano, Master Percy Williams.

GEN. MAHONE ISSUES A CALL.—Gen. Wm. Mahone, the chairman, has called a meeting for Saturday next, at Petersburg, of the republican State committee. There is an impression among republicans that Mahone is not disposed to lend any assistance to the people's party ticket. He is by some quoted as saying that the populists have publicly declared that they did not wish any coalition with republicans, and he is not willing to disappoint them. Some of the republicans who voted in the democratic primary in Richmond Saturday are understood to have recently visited Mahone and discussed the Virginia situation with him. The meeting of the committee Saturday is believed to be for the purpose of determining the course the republicans will pursue in this campaign.

WILL BE BURIED ALIVE.—The mind-reader, A. J. Seymour, is generally known in Illinois, and his proposed attempt to be buried and remain in the ground while a crop of barley is grown on his grave creates interest in that State. Dr. E. C. Dunn, of Rockford, has been selected by Seymour as manager. Dr. Dunn says: "There is no question that this feat can be performed. I have seen it performed successfully three times in India at Allahabad, Delhi and Benares."

For several days Seymour will be fed upon a diet of fat and heat-producing food. He will then throw himself into a cataleptic state, the lungs will be filled with pure air to their fullest capacity, and the tongue placed back and partially down the throat in such a manner as to completely close the aperture to the lungs. The nose, eyes and ears will be hermetically sealed with wax. After paraffine has been spread over the entire body, to close the pores, it will be ready for burial. The body will be put into an extra large casket. This will be placed inside another, and both will be perforated in order that if any poisonous gases exude from the body, they may make their escape and be absorbed by the soil. The interment is to be made in a clay soil.
